PREFACE.

It was very wisely determined by our ancestors to import representatives of the improved races of cattle already existing in Great Britain, as the foundation of our improved breeding, rather than attempt to form improved types for ourselves. And it has become American Shorn-horn usage to deny the claim of purity to any stock not descended from imported ancestry. There has very naturally arisen a loud call for a complete and handy list of all animals that have been imported, in order that breeders may have a ready means of learning the history and origin of the various tribes that constitute our herds, and to serve as a check against fraud and forgery. The present volume has been prepared at the cost of much labor, in the effort to meet this demand.

This catalogue professes to include the names and pedigrees, so far as still extant, of all Short-horn cattle that were imported into America up to the end of the year 1882. Although a large proportion of those imported in 1883 and the early months of 1884 have been included also, no claim of completeness is made in regard to them. Even during the period up to 1882 no doubt entire completeness and accuracy has not been obtained. It has proved impossible to obtain the details concerning certain importations; concerning others, the information that has been obtained is fragmentary; no doubt concerning others it may be erroneous. Petty errors have probably been unavoidable. Pains have not been spared, however, to present in all cases the fullest and most exact and most authentic information that could be obtained; and I shall be surprised to find that any considerable omissions have occurred or serious errors have been fallen into. I need not say that corrections and additions of all kinds will be most gratefully received, and made public; and breeders are earnestly urged to communicate to me all such criticisms as may tend to perfect the Second Edition.

The arrangement that has been adopted will be readily understood at a glance. A chronological arrangement would have been, in many aspects, exceedingly valuable; but, on the whole, the alphabetical scheme seemed most likely to be useful. In the body of the book the importers are arranged in alphabetical order, while the index gives an alphabetical list of the animals themselves, with such information concerning them as seemed most needed. It is hoped that by this scheme the matter is presented in the handiest possible shape for actual use. Such animals as seemed, on good evidence, to have been imported, but the history of the importation of which it has been found impossible to obtain, have been classed by themselves at the end of the volume. After them will be found a similar list of such as purport to have been imported, but apparently were not. Some of these pedigrees may have arisen in error, others in fraud; none of them, in the present state of the evidence, can be accepted as true. Their descendants at this late day are, no doubt, Short-horns; but they cannot be accepted as Short-horns descending from imported ancestry.

It would be impracticable to return thanks by name to all who have given me substantial aid in compiling this volume. I must ask the numerous gentlemen who have responded so kindly and promptly to the many questions, and sometimes rather unreasonable demands I have made of them, to permit me to cheaply discharge my debt to them by this general mention. The time may come when I may be able to return their courtesy by a like readiness to give them aid; and I trust I may be enabled then to yield it as readily and as ungrudgingly as they have done to me. Meanwhile, I may be permitted to dedicate this book to them, in company with all lovers of Short-horn history and all friends of the Short-horn race.

NOTE.—Observe that in the list of calves given under Sophia, p. 952, vol. 5, E. H. B., there is no heifer credited to Sophia by Waverly (2820). She had a bull calf, Metullus, calved Dec. 23, 1837.

SPLENDOR—Roan, calved May 7, 1836, bred by Mr. Cattley, got by Symmetry (2723), out of Pomona by Bedford Jr. (1701)—Mulberry by Isaac (1129)—by Whitworth (1584)—by White Comet (1582)—by son of Mr. Charge's Kitt (2179).

Recorded, E. H. B., vol. 5, p. 784, under dam, and A. H. B., vol. 1, p. 229. Sold to Mr. E. P. Prentice, of New York.

SPLENDOR—Roan, calved Sept. 3, 1836, bred by Mr. Cattley, got by Symmetry (2723), out of Pomona by Bedford Jr. (1701)—Mulberry by Isaac (1129)—Mulberry by Rob Roy (556)—Damask by Cecil (120)—Red Rose by Windsor (698)—Pink by Simon (590)

—(bred by Mr. Angus of Styford) by Colonel (—)—by Styford (629)—by son of Hubback (319).

Recorded, A. H. B., vol. 2, p. 562.

NOTE.—From the best information in my possession, both of these cows were imported by S. Wait, into New Orleans; the first in 1839, and sold to E. P. Prentice, of New York; the latter in February, 1840, and sold to Mr. Gambel, of New Orleans, who sold her to the Shakers, of Pleasant Hill, Ky. By examining the pedigree, it will be seen that both are alike, till we reach Mulberry by Isaac (1129), except the first was calved May 7, 1836, which is correct (see E. H. B., vol. 5, p. 784), the last Sept. 3, 1836, which cannot be correct and be out of Pomona by Bedford Jr. (1701). By examining the E. H. B., vol. 2, p. 454, of 1829, we find Mulberry by Rob Roy (556), bred by Rev. Thos. Harrison, calved in 1820, and her first calf dropped in 1822; under her, in this volume, are recorded six calves (1822 to 1827, inclusive)—three bulls and three heifers—none by Isaac (1129); then again she is recorded in the E. H. B., vol. 3, p. 522. She is here credited with four calves—three heifers and a bull—none of these by Isaac (1129). She then disappears from the Herd Book. We are but to presume, to say the least, that there is a gross error somewhere in the pedigree of this last-named Splendor. With this explanation, I leave her to the consideration of breeders.

DAISY—Roan, got by Barnaby (1678), dam by Admiral (4)—by 2d Hubback (1423)—by Frederick (1060)—by Hermit (305)—by Punch (531)—by Snowdon's Bull (612)—by James Masterman's Bull (422)—by Waistell's Bull (669)—by Marquis (2270)—by Dundas (1943)—by Simon (590).

A. H. B., vol. 2, p. 343.

NOTE.—This cow also was imported into New Orleans, in 1840, by S. Wait, who sold her to Mr. Gambel, and he to the Shakers of Pleasant Hill, Ky. By a little judicious transposition a credible pedigree might be made of it, but I leave it as it is for the study of future pedigree explorers. As so many errors and blunders have been found in the pedigrees of cattle imported by S. Wait, it is deemed necessary to here state that they should be examined with great care.

NOTE.—I am not sure that this bull was ever imported, but the bulk of evidence I have points that way.

Animals Whose Importation is Doubtful, and Some of Whose Pedigrees are Incorrect.

ADELIN, by Grandson of Comet (281), must have been an imported cow, if there was ever such a cow at all, which I cannot think. See Rosamond, A. H. B., vol. 2, p. 539.

ANNA, by Young Lancaster (361), must of necessity be an error. Young Lancaster (361) was calved in 1819, son of Comet Halley Jr. 992, calved in 1848. See vol. 16, p. 12117, in Jessie.

ANN RUSK, in the pedigree of Roderick 922. A. H. B. I cannot find that such a cow was ever imported.

ARCADIA, A. H. B., vol. 3, p. 295. To make this pedigree, the pedigree of imported Van Buren 1062, A. H. B., has been borrowed. The cow Marino was never imported.

CINDERELLA, by Red Simon. See Knickerbocker 17479. I can find no such cow. Dr. S. D. Martin, of Clarke County, Ky., imported in 1839 the cow Leonida by Red Simon (2499), out of Red Rose or Delia by Governor (1077). It may be this should be the cow Leonida. See also Alborg, p. 280, vol. 3, 1st ed.

DAISY, A. H. B., vol. 2, p. 343. This cow, from the best information I can command, was imported into New Orleans by Samuel Wait. Sold to Mr. Gambell, who sold her to the Shakers, of Mercer County, Ky. Her pedigree is evidently erroneous. See Wait's importation.

DELIA (dam of Orcher 1959), never imported. This again is the pedigree of imported Van Buren 1062.

HELEN, by 2d Duke of Northumberland, in Rebecca 2d, A. H. B., vol. 13, p. 880, was never imported. She was bred by Capt. Barclay (see E. H. B., vol. 8, p. 370), and sold by him to Mr. Milne, Faldonside, in whose hands she produced calves in 1846 and '47 (see E. H. B., vol. 8, p. 370); therefore

she could not have produced the cow Lucy by Oliver (2387), who never was in England; Oliver was bred by Col. Powel, of Philadelphia, brought to Kentucky in 1832 by Hon. H. Clay, who sold him in 1834 to Capt. Ben Warfield, who sold him in 1840 to Mr. J. G. Handy, of Mercer County, Ky., in whose hands he died in 1842.

JESSAMINE. A. H. B., vol. 3, p. 460, this fraud is too apparent to need any comment.

JOSEPHINE, by Dagon (see Kitty Payne 2d, A. H. B., vol. 3, p. 472), is wholly fraudulent. I have a letter from Mr. Robinson, of Clifton Pastures, England, saying this cow died his property.

KERR COW. See Belle, A. H. B., vol. 2, p. 299. Mr. Kerr never owned an imported cow—this I learned from himself.

LADY WALK. See No. 1018 in A. H. B., Sweepstakes. No such cow was ever imported into Kentucky that I can get any knowledge of.

LUCINDA by imported Carcase (3285), in pedigree of Rosebush, A. H. B., vol. 3, p. 636, is evidently an error.

LUCY. See Colfax 16505. Lucy at end of this pedigree was not imported by the Ohio Co. in 1834, that Company imported no such cow.

LUCY LANN, page 454, vol. 2, A. H. B. It would appear by this pedigree that the cow Red Rose by Forester had been imported, or that Lucy Lann herself was an imported cow. I have shown that Reformer 897 is incorrect, and by looking at Reformer (2510), E. H. B., it will be seen that Lucy Lann's pedigree is the pedigree of Reformer (2510), except the sire Magnum Bonum is left out. This pedigree is evidently incorrect.

MARIA, by Suwarrow (636). See Prince de Joinville 2075½. Thoroughbred cow imported by Thos. Stamps. This is incorrect; Mr. Stamps never owned an imported cow—this I have from himself.

MILO 711, A. H. B. By referring to English Herd Book, vol. 5, p. 963, to Sprightley imported by Dr. S. D. Martin, of Clarke County, Ky., in 1839, it will be seen that she produced no calf named Milo.

MILTA. This must be an error. See Blue Ball 1259.

PERFECT. A. H. B., vol. 3, p. 596. No such cow as White Belle was ever imported into Kentucky that I can find trace of.

PINK by Hermit (305). At one time I was led to believe that this cow was a calf of imported Ann, imported by C. C. Morgan and Joel Higgins, of Lexington, Ky., but upon further investigation I found it was not true, and I am led to believe no such cow was ever imported. See Laura, A. H. B., vol. 3, p. 493, 1st ed., bred by S. P. Kenney.

RED ROSE. See Lucy Lann, above.

RED ROSE by Govenor (1077), out of Roaney by Wellington (680)—Lily by Blaize (75). See Alborg, vol. 3, p. 280, 1st ed. I can find no trace of such an imported cow. This may be a part of pedigree of Dr. Martin's imported cow Leonida by Red Simon (2499), out of Delia or Red Rose by Govenor (1077). See also 17479, Knickerbocker.

REFORMER. Bred in England the property of Mr. Harrison, of Yorkshire. He occurs in the pedigree of Blanche, A. H. B., vol. 1, p. 149. All the evidence I can get suggests that this bull was never imported.

REFORMER 897, A. H. B. There was no such bull imported into Kentucky. The pedigree after Magnum Bonum (2243) is the pedigree of the imported bull Goldfinder (2066). Mr. John Colling, White House, England, bred a Reformer (2510) by Magnum Bonum (2243), who was the sire of Mr. James E. Letton's imported cow Miss Severs; from this I think the error has sprung.

RUBY. See Sir Don 971. There is some error in this; Clarinda by Buckingham (1755) had no calf named Pomona by Fitz Roslyn (2026). See E. H. B., vol. 5, p. 185.

SYLVIA by Borderer (3191), in pedigree of Duke of Bourbon 1468 (vol. 3, A. H. B., 1st ed.) is said to have been an imported cow, which is an error. This is the pedigree of Ralph (4862), imported by Waite & Bagge, in 1839.

TRUE LOVE by Amor (747), out of Theresa by Navigator (1260)—Tranquil by Defender (194)—Trap by Candor (107)—Young Tragedy by Wynyard (703)—Tragedy by Favorite (252)—by Punch (531). I can find no evidence that this cow was ever imported, but I must say I cannot find that she was not. See Lady Balco, A. H. B., vol. 3, p. 475, also No. 271, Bolivar.

YOUNG DUCHESS, the dam of Don John 9768. There must be an error in this pedigree. By referring to E. H. B., vol. 5, p. 295, it will be seen that Young Duchess had a bull calf in 1837, which was steered; in 1838, bull calf Marton Comet by Halley's Comet (3963); in 1839 and '40 she had cow calves. She does not again appear in Herd Book. I think this should be Don John 427. Imported by S. Waite, sold by him to Shirley & Birch, and by them to Benj. P. Gray, Woodford County, Ky.

APPENDIX.
